## Ergonomics of the thermal environment - Estimation of thermal insulation and water vapour resistance of a clothing ensemble

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		vi
1	Scope .....	1
2	Terms and definitions .....	1
3	Application of this International Standard .....	5
4	Estimation of thermal insulation of clothing ensemble based on tables and with values measured on a standing thermal manikin .....	7
4.1	General .....	7
4.2	Insulation values of complete ensembles .....	8
4.3	Ensemble thermal insulation values based on individual garments .....	8
4.4	Complete ensemble insulation corrected for small differences in composition .....	8
4.5	Calculation of thermal insulation for clothing ensembles .....	9
4.6	Calculation of thermal insulation for individual garments .....	9
5	Estimation of clothing area factor .....	10
6	Estimation of surface (or boundary) air layer insulation .....	10
7	Estimation of water vapour resistance .....	12
7.1	General .....	12
7.2	Estimation of vapour resistance of clothing ensembles based on tables with values measured on standing thermal manikin .....	12
7.3	Estimation of vapour resistance of clothing ensemble based on its relation with dry heat resistance .....	12
8	Influence of body movement and air movement on the thermal insulation and vapour resistance of a clothing ensemble .....	13
8.1	General .....	13
8.2	Correction of clothing insulation .....	13
8.3	Correction of clothing vapour resistance .....	18
8.4	Activities other than walking .....	20
8.5	Relative air velocity .....	20
9	Other factors influencing clothing insulation .....	22
9.1	General .....	22
9.2	Posture .....	22
9.3	Effect of seats .....	22
9.4	Effect of pressure .....	22
9.5	Wetting .....	22
9.6	Washing .....	22
Annex A (normative) Thermal insulation values for clothing ensembles .....		23
Annex B (normative) Thermal insulation values for individual garments .....		46
Annex C (normative) Vapour permeability index values for clothing ensembles .....		73

<b>Annex D (informative) Measurement of thermal insulation and water vapour resistance of clothing ensembles on a thermal manikin .....</b>	<b>88</b>
<b>Annex E (informative) Measurement of thermal insulation and water vapour resistance of a clothing ensemble on human subjects .....</b>	<b>94</b>
<b>Annex F (informative) Different expressions for the thermal insulation of clothing .....</b>	<b>96</b>
<b>Annex G (informative) Estimation of the heat exchanges for reflective clothing .....</b>	<b>98</b>
<b>Annex H (informative) Guidance on the determination of the covered body surface area .....</b>	<b>100</b>
<b>Bibliography .....</b>	<b>102</b>
